

Math Mondays! April 21, 2025

Spring Sports

Kindergarten – 2nd Grade:

Ask your students to design (customize) their jersey. Then use the image to answer each question

1. What is the difference between the uniform number and 100?

2. A softball team has 15 players. How many uniforms are needed for 3 softball teams? Use words and numbers to support your answer.

3. Only 7 players from each team are on a youth soccer field at one time. There are 2 soccer fields at the park. Both fields have games going on. How many players are on the fields altogether? Use words and numbers to support your answer.
