Spring Flowers!

Kindergarten – 2nd Grade:

Use the image to answer each question

Image 1: Spring Meadow

1. Complete the table to tell the number of each type of flower.

Type of Flower Based on the Number of Petals	Number in the Image
 (3 petals)	
 (4 petals)	
 (6 petals)	

2. Jason claims that there are half as many flowers with three-petals as there are flowers with six petals. Do you agree with Jason’s claim? Use words and numbers to support your answer.

3. How many flowers are in the image altogether? Use words and numbers to support your answer.
