

## Math Mondays! May 19, 2025

### Indianapolis 500

#### Kindergarten – 2<sup>nd</sup> Grade:

Ask your students to color the image. Then use the image to answer each question.

1. There are 33 cars racing in the Indy 500. How many cars are not included in the image?

2. Cars complete 200 laps to finish the Indy 500 race. The lead car just completed lap 137. How many more laps are needed to complete the race? Use words and numbers to support your answer.
