Cinco de Mayo!

Kindergarten – 2nd Grade:

Ask your students to color the image. Then use the image to answer each question

1. The grandmother in the image is 92 years old and the toddler is 4 years old. What is the difference between their ages?

2. Tina made 18 tacos. How many tacos can each person (shown in the image) eat so that they share the tacos equally? Use words and numbers to support your answer.

3. The first known celebration for Cinco de Mayo was in 1863. Assuming that Cinco de Mayo is celebrated every year, then how many years in all has the celebration taken place? Use words and numbers to support your answer.
