

Fall Harvest

3rd – 5th Grade

1. Beth and Jan both grew watermelons. Beth's largest watermelon weighs 18 pounds and Jan's weighs 26 pounds. What is the difference between the weight of Beth and Jan's watermelons? Use words and numbers to support your answer.

2. Only $\frac{3}{4}$ of Betty's green bean plants produced any beans. She had a total of 16 green bean plants. How many of her plants produced beans? Use words and numbers to support your answer.

3. Farmer Dave has 20 rows of corn. Each row has 50 stalks of corn. Each stalk has 3 ears of corn. How many total ears of corn does farmer Dave have? Use words and numbers to support your answer.
