Fall Harvest

Kindergarten – 2nd Grade:

Ask your students to color the image. Then use the image to answer each question

1. How many tomatoes are on the ground?

2. Susan picks 15 of the tomatoes off the plants. How many tomatoes are left on the plants after Susan picks hers?

3. It takes 20 tomatoes to make 1 jar of ketchup. Based on the image, how many jars can be made from this harvest? Use words and numbers to support your answer.
