

**Math Mondays! September 1, 2025**  
**Labor Day**

**Kindergarten – 2<sup>nd</sup> Grade:**

Ask your students to color the image. Then use the image to answer each question

1. Labor Day is considered the “unofficial” end of summer. Summer officially begins in June and continues through August. How many months are part of summer?

2. Many people enjoy cooking out to celebrate Labor Day. Using the image, how many more hotdogs are on the grill than on the plate.

3. Edith is planning for her family cookout. There will be a total of 8 people. She plans to have 2 hotdogs for each person. How many hotdogs does she need? Use words and numbers to support your answer.
