## Football Season

**Kindergarten – 2<sup>nd</sup> Grade:**

Ask your students to color the image. Then use the image to answer each question

1. The player in the image is at the 23-yard line. How many more yards are needed for the player to be at the 30-yard line.

---

---

---

2. Each football player needs two knee pads. How many knee pads are needed for 3 players?

---

---

---

3. Football teams work to score a touchdown. Each touchdown is worth 6 points plus 1 more point if they kick the extra point successfully. A field goal is worth 3 points. How many points does a team have if they have scored 1 touchdown, 1 extra point and 1 field goal? Use words and numbers to support your answer.
