## Apple Orchard

### Kindergarten – 2<sup>nd</sup> Grade:

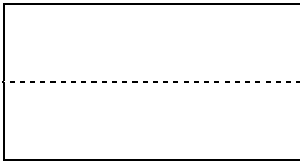

Ask your students to color the image. Then use the image to answer each question

1. How many apples are in the trees altogether?

2. The basket has 10 apples. How many apples are in the basket that you cannot see?

3. It takes 8 apples to make 1-quart of applesauce. How many quarts of applesauce can be made using the apples in the tree and in the basket? Use words and numbers to support your answer.
