Costumes

Kindergarten – 2nd Grade:

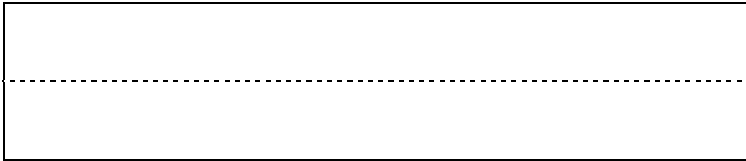

Ask your students to color the image. Then use the image to answer each question

1. How many circles are part of the costume?

2. What other shapes are included in the costume?

3. Billy's mom made the costume. She used 10 feet of flexible tubing to create the legs and arms. She used 6 feet of the tubing on the legs. How much tubing is needed for 1 arm? Use words and numbers to support your answer.
